<https://www.itti.com.pl/en>

ITTI specializes in delivering innovative IT solutions tailored to meet the complex demands of contemporary businesses. Their expertise spans across various industries, providing cutting-edge technology and services that drive efficiency and growth. ITTI also participates in EU research projects, trying to implement the developed solutions in life. Moreover, the company focuses on cooperation with the European Space Agency and the European Defense Agency, providing products dedicated to the needs of space and defense sector.

The Team

[Kamila Strońska](#) - Manager & Analyst

[Andrzej Adamczyk](#) - IT Expert

Kamila and Andrzej lead ITTI's efforts in our project, bringing a wealth of knowledge and experience in IT and business solutions. Their dedication ensures the seamless integration of advanced technologies in our initiatives.

Collaboration with PJAIT

ITTI collaborates closely with the ([Polish-Japanese Academy of Information Technology](#)) in Work Package 5 (WP5). Together, they are developing the Knowledge-Based Expert System, an AI-enhanced Link4Skills Navigator. This system is designed to provide tailored guidance and support to decision makers on skills and labour market.
