

PARTNER PROFILE

[International Centre for Migration Policy Development \(ICMPD\)](#), Austria

With a dual role in developing an inventory and typology of skills mobility partnerships and showcasing migration skill corridors to Austria, ICMPD brings invaluable expertise to our consortium.

[Daria Huss](#)
Researcher

ICMPD conducts research on the Austrian corridor with India and Indonesia, collaborating with IIMAD and SMC closely in this process.

They also conduct research on skills mobility partnerships, mapping existing partnerships relevant for Link4Skills countries in the Global Skills Partnership Inventory, which will be housed in the Link4Skills Navigator, as well as conduct more in depth case study research on these partnerships.

Their work across these research strands promotes fair skill utilisation and exchange, learning from existing practices in Austria and globally. Together with Link4Skills partners, we aim to promote impactful policy solutions in this area.
